### STANDARD SYRINGES: LUER SLIP & LUER LOCK

LIFELONG manufactures a full range of hypodermic syringes to match a variety of clinical needs. Our state-of-the-art manufacturing assures products of consistently high quality that also meet the most rigorous clinical requirements.

Syringes are made of non-toxic, medical grade virgin polypropylene and are latex free and pyrogen free.

- The tip of the barrel has a 6% lower taper as per ISO: 594
- Exceptional clarity for precise volume reading.
- High contrast black graduation with permanent marking ensures clear readability.
- Safe plunger made of Milky white polypropylene and has suitable protection to avoid accidental spill over.
- Gasket is made of highly inert TPE thermoplastic elastomer in line with global practice and is compatible with any medication.
- Needle is made of cannula imported from world class manufacturer and has ultra thin wall permitting rapid and efficient drug delivery.
- Automated manufacturing process to ensure uniform quality.
- Sterilization with ETO gas using automated process as per ISO 11135.
- In blister pack syringes, Swedish medical grade paper and a good LD is used for better sealing and peel off.
- The design of the product is fully optimised in terms of cost and it complies with all ISO requirements.

### STANDARD SYRINGES

Manufactures of full range of hypodemic syringes to match a variety of clinical needs. Our state -of-art manufacturing assures products of consistently high quality that also meet the most rigorous clinical requirements.

#### PRODUCT FEATURES & QUALITY:

- Medical grade polypropylene
- Automated manufacturing process
- Consistent high quality, latex free Syringes
- Transparent barrel for prominent Reading

Available Sizes: 1, 2, 3, 5, 10, 20 & 50 ml

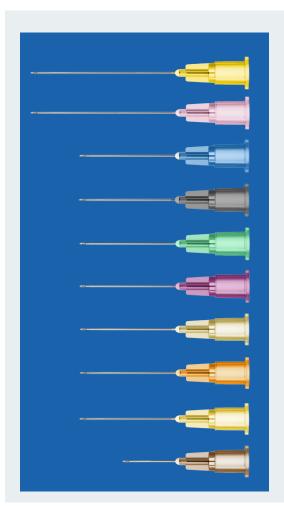

### HYPODERMIC NEEDLES

Lifelong hypodermic needle with top specification and raw material to ensure highest level of safety and efficiency of use for medical staff, minimal discomfort for patients. Needles are manufactured in compliance with ISO 7864 and it features the ultra sharp stainless steel through its optimized automated tipping technology for minimal penetration force. This contributes to preventing tissue injury and more commonly patient discomfort. Additionally LIFELONG 100% automated online inspection using cameras and sensors ensures total product quality.

#### PRODUCT FEATURES & QUALITY:

- Manufactured as per ISO 7864.
- Imported needle from world class manufacturer.
- Hub colour code for accurate, quick identification as per ISO 6009.
- Hub translucency provides confirmation of flashback.
- Needle wall is ultra thin permitting rapid and efficient drug delivery.
- Exceptionally sharp and three facet lancet point able to penetrate tissue smoothly and with minimal pain.
- Needles have ultra thin wall permitting rapid and efficient drug delivery.

Gauge	Hub Color		Needle Length per guage
18G (0.9mm)		Pink	1", 1 1/2"
19G (1.1mm)		Cream	1 1/2"
20G (0.9mm)		Yellow	1 1/2"
21G (0.8mm)		Green	1", 1 1/4", 1 1/2"
22G (0.7mm)		Black	1", 1 1/4", 1 1/2"
23G (0.6mm)		Blue	1", 1 1/4", 1 1/2"
24G (0.55mm)		Purple	1", 1 1/4"
25G (0.5mm)		Orange	5/8", 1", 1 1/2", 3/4"
26G (0.45mm)		Brown	1/2", 1", 3/8", 1 1/2"

#### **Product Available on Request**

Gauge	Hub Color	Needle Length per guage
27G (0.4mm)	Grey	1/2"
28G (0.36mm)	Green	1/2"
29G (0.33mm)	Red	1/2"
30G (0.3mm)	Yellow	1/2"

# **CERTIFICATES & CREDENTIALS**

- **(iii)** Largest Syringe Exporter from India
- ★ Star Exporter Award from Indian Govt.
- S Exports to more than 40 Countries
- Annual installed capacity of 1.6 billion syringes
